

HOW CAN WE HELP?

PROTECT RIVERS AND WETLANDS
TEACH OTHERS ABOUT HIPPOS AND WHY
THEY'RE IMPORTANT
SUPPORT CONSERVATION PROGRAMS THAT
LOOK AFTER WILD HIPPOS
NEVER BUY IVORY OR ILLEGAL ANIMAL
PRODUCTS

HIPPOPOTAMUS FUN FACTS

HIPPOS CAN'T SWIM!

– EVEN THOUGH THEY LIVE IN WATER, HIPPOS DON'T SWIM — THEY WALK OR BOUNCE ALONG THE BOTTOM OF RIVERS AND LAKES.

SUPER LOUD!

– HIPPOS CAN MAKE A SOUND AS LOUD AS A ROCK CONCERT — UP TO 115 DECIBELS!

BIG MOUTH ALERT!

–A HIPPO CAN OPEN ITS MOUTH AS WIDE AS 150 DEGREES — BIG ENOUGH TO FIT A CHILD INSIDE (BUT DON'T TRY THAT!).

UNDERWATER TALKERS

– HIPPOS CAN MAKE GRUNTS AND SQUEAKS UNDERWATER TO "TALK" TO EACH OTHER.

NOT SO LAZY!

– WHILE THEY LOOK SLEEPY AND SLOW, HIPPOS ARE ONE OF AFRICA'S MOST DANGEROUS ANIMALS IF YOU GET TOO CLOSE — ALWAYS RESPECT THEIR SPACE.
